Walnut Creek Education Foundation (WCEF) is committed to making academic excellence and innovation a reality for every one of the 5,100 students it benefits.

A contribution to WCEF directly benefits **your student**. WCEF serves as the critical funding partner for our schools, ensuring your child receives access to a high quality, well-rounded education.

State and local funding provides only a portion of the revenue needed to provide the exceptional and enriching education our community expects. Your contribution to WCEF helps bridge this funding gap, allowing us to expand educational opportunities. This is only possible with the strong support of parents like you!
